

Priority Area: Access to Services for Priority Populations

Priority Type: Substance Abuse Treatment (SAT)

Priority Population: PWWDC & PWID

Goal: South Dakota will ensure contracted substance use treatment providers maintain access to residential services for pregnant women/women with dependent children (PWWDC) and persons who inject drugs (PWID).

Objective: Maintain admitting PWWDC and PWID within 14 days or less.

Strategy: The Division of Behavioral Health (DBH) will monitor admission data and wait list information to ensure identified priority population's admission to residential treatment services occurs no later than 14 days from the clinical assessment.

Annual Performance Indicator: The DBH will track admission data from the Statewide Treatment Activity Reporting System (STARS) in order to monitor access to services.

Baseline Measurement:

Priority Population	Average Length of Wait SFY17
PWWDC	14 Days
PWID	12 Days

First-year target/outcome measurement: In SFY 2018, maintain an average of 14 days or less waiting to enter treatment for PWWDC & PWID.

Second-year target/outcome measurement: In SFY 2019, maintain an average of 14 days or less waiting to enter treatment for PWWDC & PWID.

Data Source: STARS

Description of Data: STARS reports related to necessary federal reporting requirements.

Data Issues: None at this time.
